

CHATEAU PICHON LONGUEVILLE COMTESSE DE LALANDE

2020

2020 was an extraordinary year and it gave us a wonderful surprise!

Rarely has the blend of our wines expressed so much seductive minerality and profound depth, that seems to have emerged from the very core of our terroir.

2018, 2019, 2020: a trilogy that will be a milestone in the history of Pichon Comtesse. To be continued...

— NICOLAS GLUMINEAU

THE WINE

| YIELD | ALCOHOL | PH | PRESS WINES |
|----------------|-------------------|------------|-------------|
| 30 HL/H | 13,6% VOL. | 3.8 | 13% |

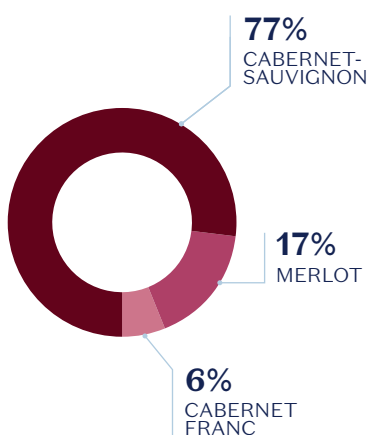

VINIFICATION

VINEYARD PLOTS VINIFICATION
VATTING BY GRAVITY
CONICAL STAINLESS STEEL VATS
WITH THERMOREGULATION

AGEING

OAK BARREL: **18 MONTHS**
60% NEW OAK
LONG MEDIUM HEAT
TRADITIONAL RACKING "À L'ESQUIVE"
EGG WHITE FINING

BLEND

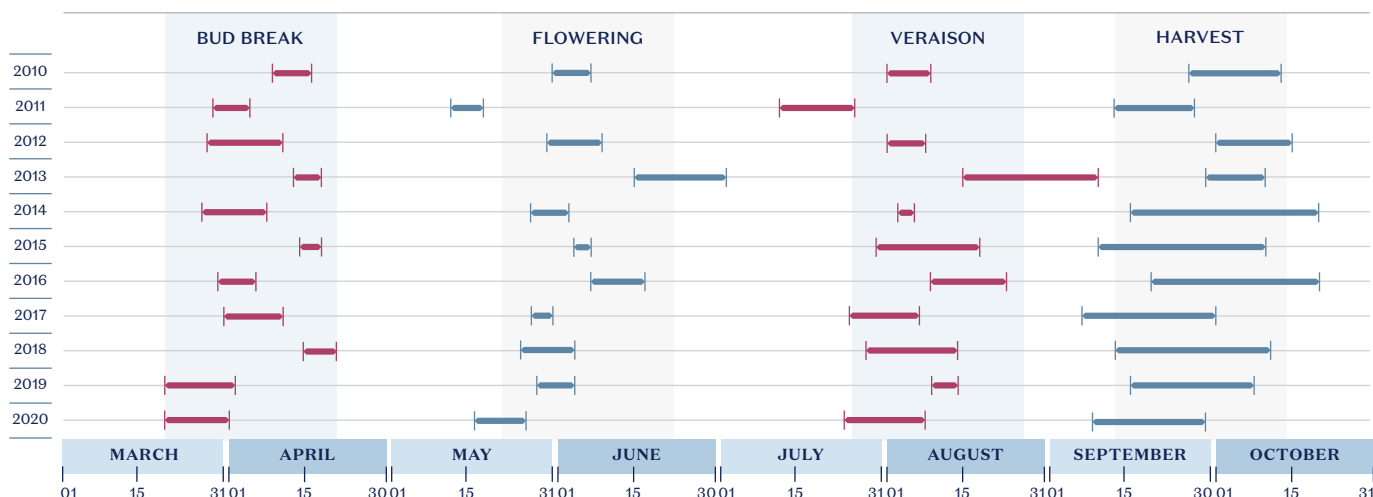

TASTING NOTES

A pure and fresh nose of blackberry, blackcurrant, peony and that cedar association of Pauillac. On the palate a subtle blend, full-bodied, powerful and great length, with a sweetness that is both seductive and savoury, with a touch of elegance. The flavours confirm these blackcurrant and blackberry notes, with structured, smooth tannins.

THE VINTAGE

Another very mild winter favoured an early **BUD BREAK** from the 20th March. April and May were hot but also very wet with rainfall superior to the last thirty years' average. Despite the rainy spells that preceded it, **FLOWERING** was early and fairly rapid, from 16th to 26th May. After a cool and fairly rainy June, the drought and heat set in for good until mid-August. Careful leaf thinning limited the exposure of the bunches to the sun's heat. The **VERAISON** began early, on 24th July, and lasted until the 8th August. The rains that followed were enough to preserve the maturity process after the period of hydric stress. The **HARVEST** began on 9th September in dry and healthy conditions. Some rainfall accompanied us until the end of the harvest on 29th September, without affecting the superb quality of the grapes.
