di BAROLO

VINEYARD

Grape-variety: Nebbiolo sub-varieties Lampia and Michet.

Location: - 85 % La Preda vineyard (clayey-marl rich soil dating back to Tortonian era) in the village of Barolo;
- 15% Other vineyard (clay and sand-rich soil dating back to Helvetian era)

Pruning: Guyot (7-9 buds)
Position: facing south-east for La Preda, south-west for Other
Vines/hectare: average 5000
Yield in grapes: 5.5-6 t/ha
Year of planting: 1965/1973
Altitude: 250-260 metres

The somewhat different soils, exposures and microclimates of the Preda and other vineyards combine to produce a well-balanced, harmonious wine packed with the fresh, elegant aromas supplied by La Preda, and the full body and structure catered for by the others.

WINE-MAKING

Crushing and de-stemming, maceration on the skins for approx. 12-15 days at a maximum temperature of 29-31°C. After drawing off and the first rackings, the wine is aged in Slavonian oak casks and small 500-litre barrels made of new French oak (Allier) for around 2 years. It completes its maturation in stainless steel, prior to bottling without filtration; the bottles are then stored lying down for at least 6 months before labelling and shipping.

TASTING PROPERTIES - CELLAR LIFE

Loads of blackberry and red berry with vanilla oak character. full and concentrated, displaying seamless tannins and gorgeous fruit. Complex and complete, full-bodied, with lots of fruit and round tannins. It's long and fruity. It will be at its best after 2-3 years stored lying down in cool, dark surroundings. Serving recommended in large glasses at a temperature of 17-18°C.
