SINGLE MALT SCOTCH WHISKY

MANZANILLA CASK RELEASE

DISTILLED MATURED & BOTTLED IN THURSO, CAITHNESS, SCOTLAND

Wolfburn is the most northerly distillery on the Scottish mainland. Originally founded in 1821, all of Wolfburn's single malt whiskies are made the traditional way: without haste, by hand, and with a huge emphasis on quality. The results are superb, and Wolfburn's special releases are consistent winners of international spirits competitions.

Wolfburn's smooth and easy-drinking character stems from the way it is made. Long fermentation is followed by slow and gentle distillation to make a pure, smooth spirit. Maturation takes place in purpose-built warehouses just a short distance from the sea.

Fortune favours the brave

MANZANILLA

Cask Finish

SINGLE MALT
SCOTCH WHISKY

Crafted from the finest Spanish oak these Manzanilla casks arrived at Wolfburn with an exquisitely dry nose to them. Used to finish this whisky at the end of its maturation the resultant dram is a delight. Fruity, sweet, full bodied and sumptuous. A whisky that every whisky lover should try.

TASTING NOTES

ON THE NOSE

Golden syrup meets cashew nut butter, overlaid with seductive vinous tones. An exceptional depth of sweet aromas.

ON THE PALATE

There's a wonderful oily richness to this dram – it coats the palate and the flavours just keep unfurling. Classic dry Manzanilla tones lead to rich fruit flavours: sultanas and plums and dates, with subtle hints of toffee and honey.

FINISH

Sweet wine and fruit flavours fade gently away, leaving a lingering hint of caramel.

70cl, 46% ABV

NON CHILL FILTERED / NATURAL COLOUR
